

# You are an Agent of God

## Agent of God Class with Dr. Boston Carter

1.5 - 2 hours: Introductory rate: \$45

This is a beta class.

Imagine a coin of consciousness. On one side is the wholeness in which you live when not incarnate. On the other side is a template of perception that you must adopt when you are born. The barrier in-between the two sides is a shroud that is full of small holes.

The problem: The template of perception side of the coin is the default view. No matter how many times you toss your coin, it lands with the template side up because it is weighted to do so, like trick dice. This makes you think that the template side of view is the only view. The closer you get to the holes, the more of the other side you can see. You can choose to peek through those holes if you know two things: 1) that they are there, and 2) that the template isn't really in charge of you.

Why is your template a problem? Because it functions through separation, forcing you to interact with the world as a piece of consciousness. When separated, consciousness creates feelings of unworthiness, emptiness, chaos, and abandonment. Your template is the source of your pain and suffering. Accessing the other side of the coin changes that.

Why should you care about this? Have you had a life-long experience of:

- Being rejected
- Feeling abandoned
- Being betrayed by others
- Or feeling isolated and alone while striving to understand or know enough?

The Solution: Learn to recognize your template so you can take charge of it and move closer to the holes in the shroud stepping into your true purpose as HEALER, MEDIATOR, COMPASSIONATE EMPOWERMENT LEADER, or WISE ORACLE.

In the Agent of God Class you will learn:

1. How you are an agent of God (your purpose and mission)
2. Which template is yours (test available on website)
3. The four template patterns
4. The positive and negative effects of the templates
5. How to work with your template to become your best self.
